

Join CIO Klub, Coimbatore chapter in association with Infor for a knowledge sharing session on 'REALIZING THE DIGITAL ENTERPRISE'

Digital disruption is on the horizon. Technologies like IoT, networked supply chain, and machine learning are already changing the way companies work & interact with customers. As these innovations and technologies unfold, companies must decide how will they respond.

We would be very pleased if we were to invite you to share a small circle along with your peers for an exclusive discussion on how to Realize the Digital Enterprise.

Friday, November 24,
2017
