

CAPITALIZE ON

DIGITAL TRANSFORMATION

with  **ptc PLM**

Drive Digital Transformation Across Your Manufacturing Organization . . . *Modernize the Entire Product Lifecycle*

Growing product complexity, increasingly distributed processes and systems, and fast time to market. These are a few of the drivers pushing manufacturers to urgently modernize through digital transformation. PLM, once solely an engineering product development tool, has quickly become central to any digital transformation initiatives.

PLM enables the collaboration across enterprise functions and processes that is crucial to stay ahead of market and customer demands
